

MTS 4/28 & 5/5 Comments?

Approval, 2nd, Approved

① ~~Memorial Walk~~ SIP Process

Turned in 3 times (normal)

3rd set comments: 4x / amount of light in / cross...

∴ Negotiating @ this time

3 pages comments, not significant per RL

Turn back in @ / end of this week

Landscaping Issues: Have had to add trees & shrubs on / North prop. line, also along / west prop line (100+ shrubs, ∼ 30 trees)

Must have a strip of landscaping for / county

Reusing as many trees as possible (5-7 = "not worthy")

Gravel parking lot still there & county is ok. (exc things like curb & gutter comments)

BMC - config of trees on / N. lot? On islands

- Will this work w/ snow removal?

- Chuck will review (no curbs around / islands). Will have to bring soil in, can't keep water in this area...

BJ - drainage issues (no curbs helps)

DE - are any of these curbs depressed? No.

HM - what is / cost difference \$13-15/lf approximately

BTC - required that particular config or group them? SP to address

KW - should be priced out as an option - PP ✓

② Memorial Walk

- Sidewalk along / p-lot, sidewalk from LL (existing), central walkway = crusher fines.

- 3 nodes to stop @ = 12-15 dia. Mem service, prayer w/ shade trees

- Sequencing of dark & light = on purpose...

- Columbanum? Not designed yet, but told DC there will be one in / future...

Memorial walk - continued...

- Benches? No pricing yet (not sure if in / budget)
- B/C - leaving this (somewhat vague) @ this time? OK?

RL - what's in / budget?

BJ - some site benches, yes. Decide on / columbanium (owner-furnished?) later.

DE - Don't have any vertical prep e this time.

B/C - We'll see when we get #'s back & what do we tell congeg?

A vert config = more expensive later than now...

HT - Let's get a cost.

Mark R - should have a conceptual design on / dwgs

B/C - How many spots are needed? to / grasp...

CC - asked for prepayment @ his church.

1,000's in / future... (capacity of Mem. Walk)

AA - lots of options. Need 2 or 3 concepts for / B/C to look @ (even if we don't do it) ✓

CC - no money to do this.

B/C - we need something...

Slide Show = put up on / website ✓

(no approval on this item)

③ Labyrinth

Meeting some time ago...

3 diff access sidewalks

Landscaping Zone (3 concentric rings of walk to, & landscaping)

Shrubs ~ 3' high (can see over them)

Mark R - bermed? NO

B/C - dimensions? Dia = 75' to / outside of / Lab walk

(TLC send H&TV site) ✓

RL - spaces outside, look smaller

~~Can't be in CSprings in / woods, this size would~~

Cindy - size of / one in SF? Guess of 50-60' dia ✓

RL - entrance does not coincide w / 3 sidewalks

Mark R - after hours? Place to sit ∴ benches @ / perimeter?

RL - some lighting

was Jackie Smith involved w/ 1 mtg?

BTC - # shrubs - h/b specified? Yes.

How much mte (need to be trimmed a lot)?

CC - will get an answer to this

Chuck - how many trees to be relocated ~~to this area~~? All but 5-7

AA - lighting in (1 #36,000?) minor, yes but not in 1 #36,000.

LL - paving material?

BJ - brick paving, 2-toned

Mel R - purchase paving stones?

RL - could certainly happen.

Cindy B - w/ contemplation, shouldn't be reading names

Mel R - possibly more app e / mem walk...

Donna P - a rose garden?

AA - possibly in / mem walk. Assemble / rose group...

Chuck - community garden? Don't know / approvals needed...

klw - Lots of ideas here...

RL - int in receiving photos & ideas & opportunities.

④ Cross

Some disc to relocate existing to mem walk...

CC - do not need a decision yet.

Our rec w/b to make 1 cross feels like it fits v. "stuck up".

General direction - yes N. axis, between 1 2 pilasters or in 1 wall itself. Want to "read" from both sides.

More of a part of 1 architecture, but 1 draw back = visibility...

WH - w/ chancel cloud, cross would be obstructed by things inside / bldg. Illum - bright enough to see from / outside but not so as to be distracting on / inside...

Daytime?

CC - want contrast of sky or brightness of 1 glass...

BMC - scale. Width of glass = 16' (inside dimension)

AA - inside or "stuck on" - what's 1 group consensus?

RL - depth on 1 inside to 4', 6" on 1 outside.

BMc - shading

MZ - cross in / window AND @ / chancel = double crossed (Lit. violation?)

WH - when do you need this decision?

CC - July, esp as it affects structure & architecture.

WH - Assume it's on top, ok w/ SIP? Yes.

BMc - Davg County, SP, congreg, Church Conference (esp) - must know before

RL - now?

BMc - by mid June = conceptual ideas

MetR - will it be on / model? Good point

Cindy B - think about / design of / cross & what it says (communicates)

too many that are big, & should have flashing lights. Theological perspectives should be meaningful. Something Artistic.

Illumination from / ground? No, cannot, but can be internally lit.

BMc - wash it in light but not "up lit"? Yes, esp from above.

WH - examples of crosses that are artistic & can be illuminated?

RL - right now Ok = internally lit. "Glow"

BMc - take this on in this group or a smaller group?

RL - clayton's photos will help.

CC - yes, & any photos you want to => = helpful. Have a few weeks still...

PI - collect art thoughts, talk about what you don't like, etc.

AA - existing cross? North end of / Memorial Walk... (size?)

Plan^R - ~~isolate it~~, isolate it, or closer. Elevated? Could be

GTP? Subs, qty's, analysis = on going
everything's on schedule

Need communications on / next agenda
